

Pediatric Cardiology

DAY 1  7th October

Session-1 | D-Transposition of Great arteries - (HALL- 2)

 16:30 - 18:00

CHAIRMAN: Abdullah Aljarallah | Faleh Alqahtani | Saad Khoshhal | Hani Mufti

Time	Topic	Speaker
16:30-16:45	Preoperative evaluation and management of d-TGA	Zaher Faisal
16:45-17:05	Surgical strategies for complex transposition	Abdullah Alghamdi
17:05-17:25	TGA late presenters: atrial switch or staged approach to arterial switch	Abdulraoof Alsaeedi
17:25-17:40	Long term outcomes of ASO: what have we learned so far	Anas Abuhazeem
17:40-18:00	Discussion	

Session-2 | The Right Ventricle - (HALL - 2)

 18:15 - 19:45

CHAIRMAN: Own Alasmari | Abdullah Alwadai | Amjad Koutali | Saud Aloufi

Time	Topic	Speaker
18:15-18:30	Echocardiographic assessment of the RV under different loading conditions	Fahad Alhabshan
18:30-18:50	The overloaded RV: mechanisms of RV adaptation and maladaptation	Sushma Reddy
18:50-19:05	Supporting the failing RV: drips to machines	Dimpna Calila
19:05-19:25	The systemic RV: how does it work and why does it fail?	Sushma Reddy
19:25-19:45	Discussion	

Pediatric Cardiology

DAY 1  **7th October**

Session-3 | Cardiac Imaging - Read with Experts - (HALL - 2)

 19:45- 21:15

CHAIRMAN: Najla Alrajaa | Mohammed Alhabdan | Mohammed Khan | Ali Alakhfash

Time	Topic	Speaker
19:45-19:55	Echocardiogram	Majied Alariefy
19:55-20:05	Echocardiogram	Yasser Meer
20:05-20:15	CMR/CT	Hayam Aboremsh
20:15-20:25	CMR/CT	Abdullah Alsehly
20:25-20:35	Fetal echocardiogram	Abdulaziz Alhalafi Najlaa Alrajaa
20:35-20:45	Fetal echocardiogram	Rima Bader
20:45-21:15	Discussion	

Session-4 | Back to Basics - (HALL-2)

 21:15 - 22:45

CHAIRMAN: Abdulhamid Alnajjar | Mohamed Mattar | Dhafer Alqahtani | Abdullah Alghamdi

Time	Topic	Speaker
21:15-21:30	Comprehensive systolic function assessment in CHD	Salim Ahmad
21:30-21:50	Cardiopulmonary exercise testing: making sense of the numbers	Kenneth Zahka
21:50-22:10	Dynamic MRI flow applications in the pulmonary circulation	Abdulmajeed Alotay
22:10-22:25	Research and publishing in developing countries	Omar Galal
22:25-22:45	Discussion	

Pediatric Cardiology

DAY 2 **8th October**

Session-1 | Right Ventricular Outflow Tract - (HALL - 2)

09:00 - 10:30

CHAIRMAN: Abdullah Alhayani | Howaida Alqethamy | Atif Alsahari | Mervat Assaqqat

Time	Topic	Speaker
09:00-09:30	Anatomical substrates of RVOTO through the eyes of a morphologist	Siew Ho
09:30-09:45	Fetal diagnosis of pulmonary atresia/intact IVS: prognostic indicators and outcomes of fetal intervention	Merna Atiyah
09:45-10:00	PV perforation: predictors of RV growth and successful biventricular repair	Naif Alkhushi
10:00-10:15	RVOT surgery: strategies to prevent long-term adverse outcomes	Mohammed Shihata
10:15-10:30	Discussion	

Session-2 | Fontan - (HALL - 2)

13:30 - 15:00

CHAIRMAN: Ahmad Jamjoom | Abdulrahman Almoukirish | Zaheer Ahmad | Khalid Alnajashi

Time	Topic	Speaker
13:30-13:50	Survival of univentricular hearts: the effect of ventricular morphology	Gruschen Veldtman
13:50-14:05	Pre-Fontan assessment: is CMR all we need?	Riad Abouzahr
14:05-14:25	Beyond the Fontan heart: Liver, Gut, and lymphatics	Gruschen Veldtman
14:25-14:40	Norwood outcomes: What drives a successful single ventricle program?	Osman Alradi
14:40-15:00	Discussion	

Pediatric Cardiology

DAY 2 8th October

Joint Session | Pediatric Cardiology & Cleveland Clinic: Congenitally Corrected TGA - (HALL-2)

🕒 15:15 - 16:45

CHAIRMAN: Rahaf Waggass | Zohair Alhalees | Khalid Alomran | Jassim Abdulhamed

Time	Topic	Speaker
15:15-15:30	The natural history of isolated congenitally corrected TGA	Riyadh Abusulaiman
15:30-15:45	Surgery for cc-TGA: patient selection for anatomical repair	Hani Najm
15:45-16:00	Arrhythmias and device therapy in cc-TGA	Peter Aziz
16:00-16:15	Management of the systemic right ventricle in cc-TGA	Shahnawaz Amdani
16:15-16:45	Discussion	

Session-3 | Sudden Cardiac Death in Children - (HALL-2)

🕒 16:45 - 18:15

CHAIRMAN: Saleh Alghamdi | Ayed Shati | Wafaa Altabbish | Tarek Momenah

Time	Topic	Speaker
16:45-17:00	Long QT syndrome in KSA: genotype spectrum and clinical burden	Waleed Almaneea
17:00-17:15	Risk factors of sudden death in repaired CHD patients	Khalid Dagriri
17:15-17:30	Asymptomatic WPW, do I have to worry?	Ahmad Aljefri
17:30-17:45	Childhood cardiomyopathy: Assessment of disease severity and prognosis	Waheed Raedi
17:45-18:00	Pediatric Syncope: Challenging cases	Peter Aziz
18:00-18:15	Discussion	

Pediatric Cardiology

DAY 3  9th October

Joint Session | Pediatric Cardiology and ACHD: Ebstein Anomaly in Adult - (HALL-2)

 10:30 - 12:00

CHAIRMAN: Ahmed Alomrani | Zakariya Albinmoussa | Hafez Alabdullah | Mohammed Alhumaid

Time	Topic	Speaker
10:30 – 10:50	Ebstein Anomaly (morphology prospective)	Siew Ho
10:50 – 11:10	Ebstein anomaly in adult (clinical and imaging assessment)	Naser Ammash
11:10 – 11:30	Surgical intervention for Ebstein anomaly in adult	Osman Alradi
11:30 – 11:50	Long-term outcome of Ebstein anomaly in adult	Naser Ammash
11:50 – 12:00	Discussion	

Session-1 | Catheter Intervention in Congenital Heart Disease - (HALL-2)

 12:30 - 14:00

CHAIRMAN: Safar Alshahrani | Abdullah Alhuzaimi | Khalid Aldhahri | Khalid Alattas

Time	Topic	Speaker
12:30-12:45	Matching device to anatomy - the key to success in VSD device occlusion	Saud Bahaidarah
12:45-13:00	Stents in CHD: options for the growing child	Mashail Alobaidan
13:00-13:20	Catheter interventions in CHD patients on ECMO: timing and clinical impact	Jameel Alata
13:20-13:40	20 years of PPVi: outcomes and challenges	Ahmed Alomrani
13:40-14:00	Discussion	

Pediatric Cardiology

DAY 3  9th October

Session-2 | General Pediatric Cardiology - (HALL-2)

 14:00 - 15:30

CHAIRMAN: Ahmad Azhar | Zaher Faisal | Saad Alyousef | Muflih Albalawi

Time	Topic	Speaker
14:00-14:15	Neurocognitive assessment and outcomes in children with repaired CHD	Basma Aljabri
14:15-14:30	How to improve the neurodevelopmental outcome in children with CHD	Bradley Marino
14:30-14:45	Enhanced Recovery After Surgery (ERAS) in children: application and challenges	Abdullah Alwadai
14:45-15:00	Fetal arrhythmias: a case-based approach	Mohamed Alghamdi
15:00-15:20	The bicuspid aortic valve: what does the pediatric cardiologist need to know	Osama Eldadah
15:20-15:30	Discussion
